FACILITY LOCATIONS (Sites) - See Attached Listing

REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY (Attach additional sheets if necessary or use APHIS Form 7023A)

A. Animals Covered By The Animal Welfare Regulations	B. Number of animal being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery but not yet used for such purposes.	C. Number of animals upon which teaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain-relieving drugs.	D. Number of animals upon which experiments, teaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals an for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.	E. Number of animals upon which teaching, experiments, research, surgery or tests were conducted involving accompanying pain or distress to the animals and for wh the use of appropriate anesthetic, analgesic, or tranquiliz drugs would have adversely affected the procedures, res or interpretation of the teaching, research, experiments, surgery, or tests. (An explanation of the procedures producing pain or distress in these animals and the reas such drugs were not used must be attached to this report	F. TOTAL NUMBER OF ANIMALS (COLUMNS C + D + E)
4. Dogs	0	94	2	2	98
5. Cats	0	144	0	11	155
6. Guinea Pigs					
7. Hamsters					
8. Rabbits					
9. Non-human Primates					
10. Sheep					
11. Pigs					
12. Other Farm Animals					
13. Other Animals					

ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

CERTIFICATION BY HEADQUARTERS RESEARCH FACILITY OFFICIAL

2005 ANNUAL REPORT OF RESEARCH FACILITY

Schering Plough Animal Health Corporation
P.O.Box 445, Farmersburg, Indiana 47850

Registration No: 32R0023

Column E Entries

I. Dogs:

Two dogs are listed in column E. These dogs were part of a pharmacokinetic study of a novel antibacterial compound. Both dogs were found dead 24 hours post administration of the compound without preliminary signs of adverse reaction.

II. Cats:

Eleven cats are listed in column E.

1. Five cats were used in a study designed to evaluate the validity of a formalin induced model for transitory pain. The use of a pain relieving agent would interfere with the evaluation of the validity of the model. Transitory moderate pain was observed that receded rapidly

2. Three cats were used in a study for the evaluation of a reformulation of an intravenous anesthetic agent. No pain or adverse reaction was anticipated, however all three cats died within minutes of the drug administration. There was no pain as the cats were anesthetized.

3. Three cats were used in a follow up study of the one described above and were administered the vehicle only. Severe adverse reactions were observed leading to the euthanasia of the three animals.
